

ELLUCIAN BANNER — MANAGED SERVICES · AI-READY

We run Banner, Oracle DB, and OCI — so your team works on what's next, not what's broken.

Tharseo IT manages the Banner application, Oracle Database, and cloud infrastructure end to end—under clear SLAs—and opens a low-risk path to Oracle AI Database 26ai for Student 360 and analytics.

Self-managing Ellucian Banner ties up your scarcest people: **Oracle DBA talent is hard to hire and keep**, the patch and upgrade cadence never stops, and downtime during registration isn't an option.

Modernize without giving up control. Your data, licenses, and infrastructure stay yours—we bring Banner and Oracle up to current and run them for you, with no re-platforming and no lock-in.

— WHAT WE RUN FOR YOU

Banner Application Management

24x7 monitoring of Banner Student, Finance, HR/Payroll, Financial Aid & SSB, plus third-party apps (Degree Works, Jobsub, ESM)—with coordinated patching, upgrades, and app SLAs.

Oracle Database, Infra & DR

Full Oracle DBA, OCI infrastructure and network security, monitoring, and cloud disaster recovery—the tier most IT teams struggle to staff, run to defined RTO/RPO.

AI-Enabled Student 360

An Oracle AI Database 26ai data layer for Student 360, AI vector search and analytics—so you adopt AI now, independent of when Banner's core is certified on 26ai.

— WHY INSTITUTIONS CHOOSE US

- **Higher-ed Banner specialists**—more than two dozen Ellucian Banner migrations to Oracle Cloud delivered since 2014.
- **Deep Oracle Database & OCI expertise** with 50+ Oracle certifications—the exact tier most IT teams struggle to staff.
- **Proprietary SWIFT methodology** for low-risk migration and steady-state operations, under clear SLAs.
- **Everything stays yours.** Your data, licenses, and environments remain client-owned—we operate and maintain them under clear SLAs, with no lock-in.

PROVEN IN HIGHER EDUCATION & THE PUBLIC SECTOR

More than **two dozen Ellucian Banner migrations to Oracle Cloud (OCI)**, plus ongoing managed operations for the databases and platforms beneath them.

First integrator to take a public-sector agency into Oracle OCI GovCloud Gen2 (DC Health). 100% public-sector focused; ~50 professionals; 50+ engagements and go-lives.
