

# THARSEO IT

*Purpose-Built  
to Deliver  
Oracle Cloud  
SaaS, PaaS,  
IaaS Services.*

**Tharseo IT is NYC Minority Business certified from NYC Small Business Services.**

**This noteworthy accomplishment will empower us to conduct business and cater to the bustling NYC market, unlocking fresh avenues for growth and opportunity. We feel privileged to receive recognition for our dedication to excellence and promoting diversity in the IT industry.**

**We also express our appreciation to NYC Small Business Services for their invaluable guidance in navigating the certification process and cultivating a more inclusive business environment in the city.**

**We are thrilled to commence this new chapter and eagerly anticipate collaborating with a diverse range of clients and partners in NYC. Let's work together to drive innovation and create a lasting impact!**

## OUR SERVICES

### Oracle Cloud Migration

Navigate the complex journey of cloud migration with our Oracle Cloud Migration services.

### Oracle Database Administration

Our Oracle Database Administration service offers comprehensive management and maintenance of your Oracle databases.

### Oracle Cloud Infrastructure Consulting

Benefit from our Oracle Cloud Infrastructure Consulting service to optimally configure and deploy your Oracle Cloud Infrastructure.

### Performance Optimization

Slow systems and processes can significantly hamper your business operations.

## OUR STORY

Tharseo IT is a Washington DC based LLC incorporated in 2014. We are a veteran run, minority co-owned, small, disadvantaged business, certified as a Federal HubZone entity. We are unique from other vendors because we prefer to be considered as an extension of your existing team. This means that we have the same priorities, sense of urgency and flexibility on scope and deliverables.

## OUR MISSION

At Tharseo IT, our vision is to be a leader in Oracle cloud technology solutions and services, delivering unparalleled value to our clients worldwide. We aim to create a future where organizations can leverage the power of the cloud to innovate, optimize, and transform their businesses, while enjoying exceptional customer service and support.
